

## Wellsville Elementary School Supply List 2020-2021

We cannot wait to have the Wellsville Elementary School students back in the building. This year is unique and we want to limit the number of items brought within the school; students **will NOT be allowed** to bring backpacks or bags to school at this time. Students bringing lunch to school can bring in a small lunch tote.

Below are the supplies we are asking each family to purchase for the start of the school year and bring in the first day of school:

- **Face Mask/Face Covering:** Students are required to wear a Face Mask/Face Covering at times during the school day. Please have at least 2 Face Masks/Coverings on hand so one can be cleaned at home each evening. Face shields maybe worn in addition to a cloth Face Mask/Face Covering.

- **Small Hand Sanitizer:** Hand washing is strongly encouraged, but we also will require each student to bring in a small bottle of hand sanitizer for personal use. Refilling stations will be available at the Elementary Building for free refills, as needed throughout the year.

- **Water Bottle:** Due to the virus, public drinking fountains are not a safe option; all drinking fountains throughout the building will be shut off. We are asking each student to bring a water bottle (not glass) to fill at school in their classroom or at a touchless water filling station.

- **Sweatshirt or Jacket:** Students should to bring a sweatshirt or jacket to school because we will be encouraging classes to go outside and keep classroom windows open when weather permits.

- All Other School supplies, including headphones, will be provided by the district for student use at school.

More information related to student teacher assignments, drop-off & pick up, and procedures for the start of school will be mailed home the first week of September.

Thank you & we can't wait to see you on Monday, September 14<sup>th</sup>.  
Wellsville Elementary We Are... One PRIDE!
