

# Welcome Back!

## **A message from the Principal Team**

*We are so excited to be putting the final details on our back-to-school plans. It has been such a long time since we've been together! We can't wait to reconnect with those returning and to welcome our new and sixth grade students entering campus for the first time.*

*In addition, we are thrilled to be closing in on the capital construction project. Although, you may have to "pardon our appearance" in some areas as the final work is completed, we are certain this project will be an incredible boost for our facilities and will launch us into the next educational stratosphere. The newly renovated areas include: updated HVAC systems, new STEAM Wing, Art & Music classrooms, 6th grade classrooms, FACS classroom, IT Space, Athletic fields and the new "Back Loop" for student drop-off/pick-up. We cannot wait to have students using these new spaces.*

*Our theme this year is **Wellsville Lions Together**. These words will embody our attitude and our actions as we take on the challenges for the upcoming school year. Our goal is to navigate this global Pandemic by working together to implement safe practices so our school community can thrive, learn and enjoy all that we love about Wellsville Secondary. Teams may temporarily separate us as we start the year, but we must remain together in spirit and committed to the cause!*

*Wellsville Lions Together, we can do this!*
