

Wellsville Elementary School Supply List 2021-2022

The Wellsville Central School District was able to purchase the majority of you student's supplies for this school year. However, we request families purchase the following personal items for the start of the school year:

- **Face Mask/Face Covering:** Students are required to wear face mask/face coverings at time during the school day. Please have at least 2 face masks/coverings on hand so one can be cleaned at home each evening.

- **Water Bottle:** Due to COVID regulations, public drinking fountains are not a safe option; all drinking fountains throughout the building have been shut off. We are asking each student to bring a water bottle (not glass) to fill at school in their classroom or at a touchless water filling station.

- **Small Hand Sanitizers:** Hand washing is strongly encouraged, but we also will ask each student to bring in a small bottle of hand sanitizer for personal use. Refilling stations will be available at Elementary Building for sanitizer refills as needed throughout the year.

- **Sweatshirt or Jacket:** Students should bring a sweatshirt or jacket to school because we will be encouraging classes to go outside and keep classroom windows open when weather permits.

- **Other items needed:** Student backpack, PE sneakers, and pencil cases. Teachers may send home welcome letters with additional requests.

Thank you & we can't wait to see you for the first day of school on Tuesday, September 7th!
