

# Adding Website to Mobile Device Home Screen

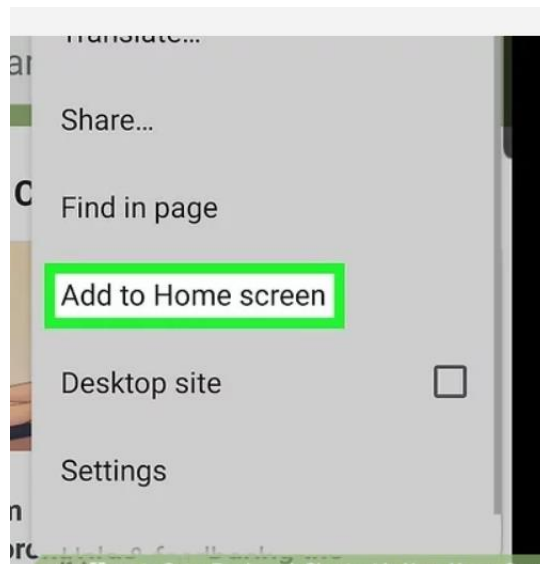

(Android Page 1, iOS Page 2)

## Android:

Using Chrome, go to the website or page desired to be added to the home screen. Once there:

Tap the three-dot menu . It's at the top-right corner of Chrome.

From that menu select:

## iOS(Apple\iPhone):

Using Safari, go to the website or page desired to be added to the home screen.  
Once there:

Press this button:

Then select:
