## Remote Learning Course Platform Guide

Dear Parents/Guardians and Students.

This handout lists the primary online learning platforms that your teachers are using to deliver lessons and communicate with their students during our extended school closure as well as information about the level of content students are learning. The most widely used platforms are communications through school email and Google Classroom. Students have been invited to their respective Google Classroom sections. If your student has a particular question about their Google Classroom account, the best action to take is to reach out to the teacher for assistance through school email. Please stay tuned for updates as we progress into the coming weeks.

<b>Middle Level Academics</b>			
<b>Grade Level</b>	<b>Description</b>	<b>Teaching Platform</b>	<b>Learning Content</b>
