

WELLSVILLE CENTRAL SCHOOL  
Parental Notice for 2022-23 School Year

As part of a required school health examination, a student is weighed, and his/her height is measured. These numbers are used to figure out the student's body mass index or 'BMI'. The BMI helps the doctor or nurse know if the student's weight is in a healthy range or is too high or too low. New York State Education Law requires that BMI and weight status group be included as part of the student's school health examination. Wellsville Central School will be reporting to the New York State Department of Health information about our students' weight status groups. Only summary information is sent. No names and no information about individual students are sent. However, you may choose to have your child's information excluded from this survey report.

The information sent to the New York State Department of Health will help health officials develop programs that make it easier for children to be healthier.

If you do not wish to have your child's weight status group information included as part of the Health Department's survey this year, please print and sign your name below and return this form, no later than December 31, 2022, to:

Mrs. Megan Burdick  
District Clerk  
Wellsville Central School  
126 West State Street  
Wellsville, NY 14895

Please do not include my child's weight status information in the **2022-2023** School Survey.
